# *Two Little Succulents*

**BUSTLE & SEW**  
LOVE TO SEW AND SEW WITH LOVE

There's something very cheerful about succulents - and cacti too - they always make me want to smile - possibly because they always look quite plump and well-fed (a bit like me haha!)

These are very easy to make from fabric scraps and the little terracotta plant pots they're sitting in are readily available online. (Mine were from ebay). I simply glued my succulents into the tops of the pots, but you could add a little modelling clay, sand or even a few pebbles to weight the bottom if you preferred. They'd be a great craft stall make too!

# Two Little Succulents

## Materials

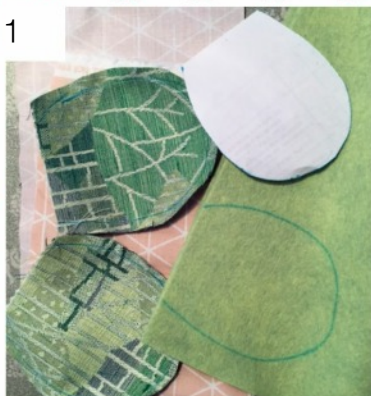

- Two miniature plant pots - mine measured 3" across at the top but if yours are a different size simply resize the templates accordingly.
- Scraps of green felt and fabric
- Small scraps of pink or another colour felt for the flowers
- Polyester stuffing

- Hot glue gun

*Note: the seam allowance is NOT included in the templates - you will need to add on an additional 1/8" all the way around before cutting out.*

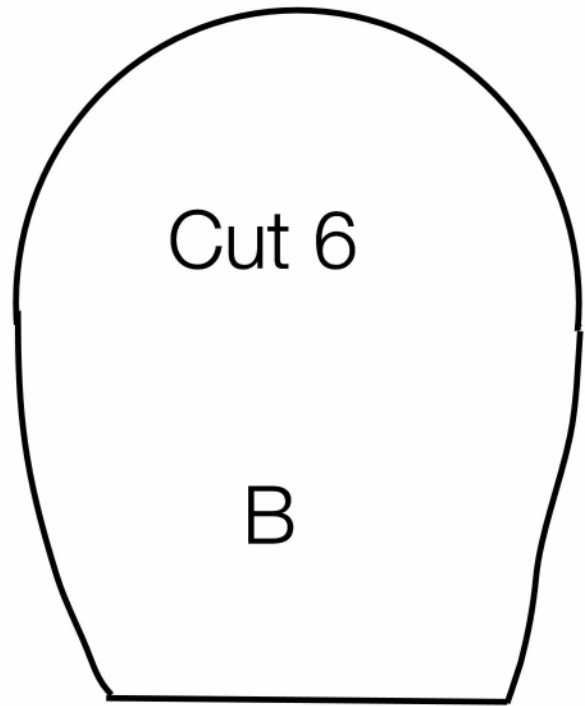

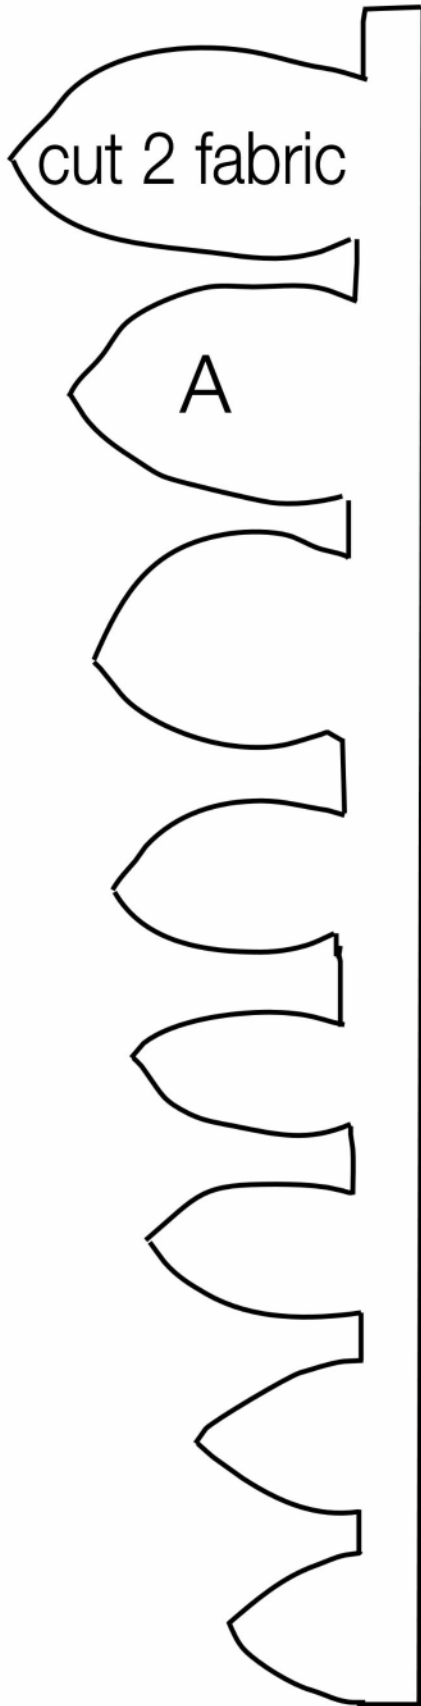

## Method

- For the flowering cactus cut out six pieces using template B (1).
- Sew the pieces together in pairs with right sides together (2).
- Clip curves and turn right side out. Press. Stack the shapes on top of each other (3) and pin.
- Run a line of machine stitching down the centre of the stack of shapes. (4) Stuff each segment of the shape firmly (5).
- From your coloured felt cut two strips, one measuring 6" x 1" and the second 6" x ¾". Fringe one edge of each strip (6).
- Cut the strips into three 2" pieces and roll up together to make 3 flowers, securing the roll with a dab of glue.
- Glue flowers into place on cactus. Push cactus into place in pot and secure with hot glue.
- For the succulent, fold your fabric in half right sides together and press. Place template A on top and draw around it. Stitch along the line, then trim away the excess fabric (I find this much easier than cutting and then trying to match such fiddly shapes).
- Clip tips and curves, turn right side out, press and stuff the leaves lightly. Top stitch bottom edge closed.
- Roll up strip to form the centre of the plant, securing with a few stitches as you go.
- Cut a felt strip using the larger shaped leaves and roll around the outside of your fabric leaves, pinching the base of each leaf and securing with your hot glue gun.
- Push succulent into place in pot and secure with hot glue.

## Two Little Succulents

Templates are actual size

Add 1/8" seam allowance to both templates when cutting

Additionally cut a second strip from template A - from felt with all the leaves are the same size as the top (largest) one

LOVE TO SEW AND SEW WITH LOVE

Why do we love to stitch? After all you can purchase mass-produced textile items at many high streets stores for very little cost. These days handmade means something special - a unique item created with love, a gift from the heart, not one that can be bought.

Hand stitching is also a great way to personalise an item, or perhaps to breathe new life into an old favourite that has seen better days.

[Bustle & Sew](#) offers my own unique patterns, designed to appeal to all skill levels and bring out all your natural creativity. And you can keep up to date with all the latest news from Devon where I live as well as the newest patterns and much more over on the [Bustle & Sew Blog](#).

**PS** If you love stitching, then you're sure to enjoy my Bustle & Sew Magazine. It's delivered by email to your in-box each month and is crammed full of ideas, projects, features, articles, patterns and more to inspire you. Your family and friends will soon be queuing up to take delivery of your new Bustle & Sew creations. To learn more please visit the [Bustle & Sew website](#).
